

SATWIK SAXENA

Java Full Stack Developer

91 81266-66980 • satwiksaxena41@gmail.com • www.linkedin.com/in/satwik-12-dev • Moradabad, Uttar Pradesh
• https://github.com/satwik12dev • https://satwiksaxena-30fb9.web.app/

Summary

I am a motivated Full Stack Java Developer with hands-on experience in developing real-world web applications. My expertise lies in Java, Spring Boot, MySQL, React, Node.js, and Firebase, backed by a solid understanding of OOP, REST APIs, and Agile Methodologies. I am committed to delivering scalable solutions and continuously learning about new technologies to enhance my skills

Experience

IBM

Intern

AI-ML Intern

Moradabad, Uttar Pradesh

06/2025 - 08/2025

- Worked on Deep Learning and Convolutional Neural Network (CNN)-based image classification
- Developed a Cat vs Dog image classification model using Python, TensorFlow, and Keras
- Built and deployed the model using Streamlit for real-time prediction
- Performed dataset preprocessing, model training, tuning, and evaluation
- Gained hands-on experience in AI/ML workflows, including data pipelines and performance optimization

Education

Teerthanker Mahaveer University

Bachelor of Technology in Computer Science (BTech - CSE) In collaboration with IBM

Moradabad, Uttar Pradesh

08/2023 - 05/2027

Key Achievements

EzyTranShip

Built the EzyTranShip vehicle booking platform, used by 150+ users during the testing phase.

File Hider App

Created a File Hider app ensuring 100% secure file encryption for sensitive user data.

Image Classification of Cat vs Dog Using CNN and DL

Developed a Cat vs Dog image classification model using CNN & Deep Learning.

Soft Skills

Team Collaboration, Time Management, Problem Solving, Native English

Skills

Frontend: HTML, CSS, JavaScript, React, Tailwind

Backend: Java, Spring Boot, Node.js, Express.js

Database System: MySQL, MongoDB, Firebase

Tools & DevOps: Git, Docker, Linux, IntelliJ, VS Code

Concepts: Object-Oriented Programming, DBMS, OS, Data Structures, Agile

Projects

EzyTranship

A vehicle booking platform that connects users with commercial drivers

File Hider App

An application focused on securely hiding and managing users' personal images and files

Image Classification of Cat vs Dog Using CNN and DL

An image classification project utilizing CNN and Deep Learning

Certificates

TCS IoN Career Edge,
AWS Cloud Practitioner Essentials,
IBM Java Programming Certification,
GUVI Python Programming Certification,
Cloud Fundamentals,
Big Data & RDBMS Concepts,
NPTEL – Computer Architecture,
PEBL Internship & Training Certification by IBM
